Nairobi, Kenya.

Subject: Application for the Safaricom Internship Program 2025/26

Dear Hiring Manager,

I am excited to apply for the 2025/26 Safaricom Internship Program, as advertised. With over three years of experience in software development and applications support, I am eager to leverage my technical expertise and problem-solving skills in a dynamic, innovation-driven environment like Safaricom.

As a Full Stack Developer, I have gained hands-on experience in front-end technologies like Vue.js, React, and Angular, as well as back-end frameworks like Laravel and Node.js. My role as a Software Engineer at Dafric Logistics has strengthened my proficiency in PHP Laravel, API development, and Dockerized applications. Additionally, my tenure as an ICT Support and Applications Engineer at ICT Authority and my apprenticeship at Sawasawa Technologies have honed my expertise in networking, system automation, and database management.

Beyond technical skills, I have developed strong leadership, teamwork, and project management abilities, particularly in agile environments. My experience collaborating with cross-functional teams and optimizing business processes aligns well with Safaricom's commitment to innovation and excellence.

I am particularly drawn to this internship because of Safaricom's leadership in technology and its investment in young talent. I am eager to contribute to impactful projects, enhance my skills, and gain valuable industry experience under the mentorship of seasoned professionals.

I look forward to the opportunity to discuss how my background aligns with your program's objectives. Thank you for your time and consideration.

Sincerely,

A.W
